## Spaghetti

Category	Author
🐛 Malware	<a href="#">John Hammond</a>

## Challenge Prompt

You know, I've been thinking... at the end of the day, spaghetti is really just strings of pasta!

Anyway, we saw this weird file running on startup. Can you figure out what this is?

I'm sure you'll get more understanding of the questions below as you explore!

## ⚠ CAUTION

This is the **Malware** category, and as such, includes malware. Please be sure to analyze these files within an isolated virtual machine.

 spaghetti.zip  
331 kB

## 📌 IMPORTANT

The ZIP archive password is **infected**.

## 📌 NOTE

You may find a public paste URL that is expired. This is an artifact of the original malware sample and is intentional. This URL is not necessary for the challenge.

## MainFileSettings

Uncover the flag within the "main file."

## 📌 NOTE

Once you uncover the intended payload, you shouldn't need to do any further analysis. Use context clues from the challenge description and you should find the flag.

Submit the flag below:

4 points

✓ Correct

## My Fourth Oasis

Uncover the flag within "my fourth oasis."

Submit the flag below:

3 points

✓ Correct

## MEMEMAN

Uncover the flag beside "MEMEMAN."

Submit the flag below:

3 points

✓ Correct
