### Challenge Prompt

These scribbles are impossible to read!

42 6c 6f 77 66 69 73 68

Some crazy fisherman came by, dropped this note, and was muttering something in his drunken stupor, about his fishing pole and taking out... murlocs in **Entra?** and CyberChef!?

I don't get it. You're the expert here! Not me!

WARNING

This challenge is designed for you to have a look around using enumeration tooling and emphasises thinking "outside the box", versus challenging your ability to 'pwn' the tenant. Please do not sabotage the challenge!

MFA is intended for this challenge. If you cannot sign in, try a different way.

This challenge uses flags that are **not** in the standard format of `flag{[MD5HASH]}`. You will find flags with the `flag{` prefix and `}` suffix, but a short alphanumeric string with some special characters wrapped inside the curly braces.

What is the FINAL flag? This flag is unlike the others and ends with a '?' character.

2 points

flag[didsomeonesay..?]

Correct

NOTE

This challenge also includes some "bonus flags" along the way that are still worth some points.

Submit the bonus flag that ends with the character `2` below.

Submit the bonus flag that ends with the character '2' below.

2 points

flag[928nzlasdu2]

Correct

Submit the bonus flag that ends with the character `d` below.

Submit the bonus flag that ends with the character 'd' below.

2 points

flag[02818nccnasd]

Correct

Submit the bonus flag that ends with the character `a` below.

Submit the bonus flag that ends with the character 'a' below.

2 points

flag[3mcnzxjaslwinca]

Correct

Submit the bonus flag that ends with the character `m` below.

Submit the bonus flag that ends with the character 'm' below.

1 point

flag[2naxajsmcwijdm]

Correct

Submit the bonus flag that ends with the character `c` below.

Submit the bonus flag that ends with the character 'c' below.

1 point

flag[mczxals2amxc]

Correct
