Challenge Prompt

We've decided to make this challenge really straight forward. All you have to do is find out the flag!

Juuuust make sure not to trip any of the security controls implemented to stop brute force attacks...

NOTE

Working this challenge may be difficult with the browser-based connection alone. We again recommend you use the direct IP address over the VPN connection.

IMPORTANT

Restarting the instance repeatedly is not required for solving this challenge. If you find yourself doing this, it may be worth reevaluating your strategy.
