Challenge Prompt

Sheesh! Some threat actor sure did *let it rip* on this host! We've been able to uncover a file that may help with incident response.

NOTE

1. The password to the ZIP archive is **beyblade**.
2. This challenge has the flag MD5 hash value separated into chunks. You must uncover all of the different pieces and put them together with the `flag{` and `}` suffix to submit.

beyblade.zip
298 kB

Submit the flag below:

10 points

flag{47cb5cd46d7bb34a0d9c315a99bb58de}

Correct
